Trustees.

REPORT OF TOWN AUDITOR

I hereby certify that I have audited the accounts of the town officers of Surry and find them to be correct to the best of my knowledge and belief, with vouchers therefor.

GRACE E. STILLINGS,

Auditor.

Feb. 13, 1930.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Surry:

I herein submit my seventh annual report as superintendent of schools.

As we face the rapidly changing conditions of vocational, business and spiritual life, we ask ourselves what is this thing we call education? We might fill this report with definitions which emphasize certain phases of education. A century ago men thought of education as a means of preserving the past. Now, we think of education as a means of improving the future. Our real gain to civilization is found in the improvement of man himself.

Of the many modern viewpoints of education, Dr. John Dewey has hit the trail when he says in his book entitled *Democracy and Education*: "Education may be defined as a process of the continuous reconstruction of experience, with the purpose of widening and deepening the social content, while at the same time the individual gains control of the methods involved."

New Hampshire is carrying out this interpretation in its philosophy of education; (1) through its fundamental law that every child shall be offered an opportunity to have whatever talents he may possess brought to the fullest possible development, whether he lives in the city or country; (2) the child and his interests become the center of all our efforts, selection of text books, technique of methods, courses of study and selection of teachers. In fact, the child becomes the sun about which the appliances of education revolve, the center about which they are organized.

In the development of our educational scheme, we use certain methods and have certain goals. We must not confuse the

two. A method is but a means to an end. Any method that gets the desired results in an economical unit of time is a good method. Methods come and go. Goals are more lasting. They endure for centuries.

Important goals of our public school system are: (1) the acquisition of facts or universal truths through scientific reasoning, (2) the development of the skills in the elementary schools, (3) the formation of right habits of life, (4) the endowment of right attitudes toward school work, home life, church interests and community affairs.

In short, considered from a psychological view point, we wish our children to possess alert mental abilities, rich feelings and righteous judgments.

Your superintendent, teachers and school board have kept in mind the above mentioned goals in the performance of their respective duties. The degree of success we have attained, we leave to your judgment.

PROMOTIONS

The following number of promotions per grade were made in June:

	1	2	3	4	5	6	7	8
North End,		1			4			
Village,	1	3	3	1	1	2		5
	—	—	—	—	—	—		—
Totals,	1	4	3	1	5	2		5

These promotions were made on the five point basis, viz: term rank, regularity of attendance, standard tests, judgment of teacher and judgment of superintendent.

In June, the following pupils were promoted from the eighth grade: Western Ball, Raymond Burt, Donald Crain, Frederick Griggs and William Malcolm.

TEACHERS FOR YEAR 1928-1929

North End, E. Martelle Phillips.

Village, Mrs. Ruth G. Connor.

The same teachers continue their services during the present year. The longer tenure of service of a good teacher renders a greater stability to the school system.

At the time of writing, both schools are running smoothly, the attendance regular, interest of the pupils in their work is encouraging, the teachers are alert to the best interests of the pupils and the advancement of the respective grades give promise of a successful year.

HEALTH ACTIVITIES

The school nurse, Ellen P. Clough, R. N., examined 20 pupils in April and found the following numbers of defects:

Underweight,	3
Defective vision,	2
Defective teeth,	18
Diseased tonsils,	8

Number of pupils with defects corrected since last report:

Defective vision,	1
Defective teeth,	2
Diseased tonsils,	3
Number vaccinated,	15

Mrs. Marion Warner, R. N., is serving as school nurse for the present year and is doing excellent work.

In conclusion, I wish to thank the school board, teachers, parents and citizens for their co-operation and support.

Respectfully submitted,

FREDERICK T. JOHNSON,

Superintendent of Schools.

Marlborough, N. H., Feb. 20, 1930.
